PROFILE

Second-year student of Multiplatform Application Development (DAM) with hands-on experience in Android (Kotlin) and web development (PHP, Laravel, MySQL). I built and maintain a management system used daily by a car repair workshop, working from end-user bug reports: reproducing each issue, documenting clear steps, fixing it and verifying the solution without breaking existing workflows. I want to start my career in QA / software testing, where understanding how software is built helps me find, analyse and communicate defects more effectively.

PROJECTS

Car repair workshop management system — in production | [PHP](#) · [Laravel](#) · [MySQL](#)

- End-to-end web application built from scratch and used daily by the workshop.
- Continuous defect lifecycle driven by end-user feedback: reproduction, root cause analysis, fix and verification.
- Implemented new client requirements while running regression checks to ensure existing workflows kept working.

CodeGym — gamified Android learning app (final degree project) | [Kotlin](#) · [Android SDK](#) · [Git](#)

- Built in a two-person team, with task allocation and version control on Git/GitHub.

FutchiGol — asynchronous multiplayer penalty shootout game | [Kotlin](#) · [Android](#)

- Turn-based two-player game; match logic and game state synchronisation between players.

Task app with Firebase | [Kotlin](#) · [Firebase \(NoSQL\)](#)

- Cloud persistence with a document-oriented NoSQL database and user authentication.

TECHNICAL SKILLS

QA & testing: manual functional testing, bug reproduction and reporting, fix verification, basic regression testing, web application testing.

Languages: Kotlin, Java, PHP, SQL, JavaScript, Python, Visual Basic .NET.

Web & databases: HTML, CSS, Laravel, MySQL, Firebase (NoSQL), XML, JSON.

Tools: Git, GitHub, Android Studio, Visual Studio Code, phpMyAdmin, XAMPP. Operating systems: Windows, Linux (basic).

EDUCATION

Higher Technical Degree in Multiplatform Application Development (DAM) 2024 – present

Institut Baix Camp, Reus · Currently in 2nd year

Network Systems Administration (ASIR) 2022 – 2023

Institut Esteve Terradas i Illa · 1st year completed

High School Diploma (Bachillerato) in Humanities and Social Sciences 2017 – 2019

Columbus American School

Course: Introduction to Cloud Computing (online, 30 h).

WORK EXPERIENCE

Cook — McDonald's 2025 – present

- Working under standardised procedures with quality and food safety controls.

Kitchen Assistant & Cashier — Pizza House 2024 – 2025

Mechanical Maintenance Assistant — Taller Carbaix 2020 – 2023

Sales Assistant — Valerio's Store 2019 (6 months)
